

**New You**

**1 Corinthians 12:12-27**

**A follower is a member.**

**Every person has a place and a purpose.**

**The church is an organism not an organization.**

The church, illustrated, is universal.

The church, instructed, is local.

**The church is personal, functional, tangible, and spiritual.**

Membership is not attendance; it is identity.

The body protects and provides for its weaker parts.

The body works to heal and change its unhealthy parts.

**Fellowship will be corporately what we are individually.**

Fellowship will do corporately what we do individually.

Fellowship will have corporately what we give individually.
