

Fellowship: It's More than a Name

Acts 2:42-47, Acts 4:32-37, Acts 6:1-7

The distinctive of the Church is its devotion.

Fellowship is care.

The care of the church corporately is proportional to the care of the church individually.

Live invested.

The more invested one lives the more benefit one receives.

Live connected.

Consideration and care are the natural result of authentic connection and community.

Live known.

Known people usually have known needs; unknown people always have unknown needs.

Live available.

The availability of our time and resources is the result of our priorities.

Live beneficial.

We are not invested to gain benefit; we are invested because it is beneficial to us and others.
